

99AW7 Odvijalec - Cable Drum Decoiler

Unwinders are used for unwinding electric cables, wires, optical cables, ropes, etc. The unique construction allows gradual adjustment and use of different drums up to a weight of 300 kg. Made of high-quality galvanized steel. Rollers are additionally enriched with thrust bearings, hidden inside the element.

This cable drum decoiler is suitable for drums up to 0.57 m in wide and 0.85 m in diameter!
