

EasyGetWiFi Wireless Fiber Microscope

FEATURES:

- Dual output: WiFi and USB port
- Compatible with mainstream platforms
- Compact, safe and user-friendly
- Battery duration up to 5 hours
- Best accessory for OTDR
- Scan Bar-code to install software

Flexible Long-distance Image Transfer

EasyGetWiFi microscope can transfer the fiber endface image to various display terminals in WiFi mode. One-hand operation and slim body design enable the inspector for the most complicated testing scenarios. Click one button on the inspector or on the smart devices, operator can capture the fiber endface image and save it in display terminals. Besides the WiFi mode, the inspector also supports USB mode on communication and image transmission.

Wide OS Compatibility

It's easy to connect your laptop, tablet or smart phone to the probe. EasyGetWiFi is compatible with Windows, Android, iOS and Linux platforms.

User-friendly Design with Build-in Illumination

The unique focus ring and image capture scheme make the fiber endface inspection easier, even operating with one hand. The build-in LED helps the operator to complete the measurement even when the ambient brightness level is low.

Comprehensive Options for Adaptors

More than 40 types of adaptors are ready for your special inspections. From standard single channel connectors to MPO, you can find the adaptor ready for your testing. The adaptors come with a special designed case for better protection in the field application.

Battery duration up to 5 hours

EasyGetWiFi has a USB Type C port to recharge the removable battery. It can work with re-chargers for smart phone, laptop and tablet. USB port of computer and portable battery can also be used to charge the visual inspector. With up to 5 hours duration time and on-line recharge function, the inspector is capable for continuous visual inspection in the field.

Quick Installation

Scan the bar-code on EasyGetWiFi to download and install the App. The App is available in main APP market. No special training is required and the installation is simple and convenient.
