

Decoiler

for cable drums

*optimal solutions for
easy & safe decoiling*

As **specialist** and **manufacturer** of cable pulling devices, KATIMEX® offers a **wide range of drum handling products, drum storage systems** and **measuring tools** for small and medium cable drums.

KATIMEX® Roller Rails are manufactured from welded aluminium section and provide easy and **safe handling of heavy cable drums** (up to 1 tonne). In the larger version the rollers are manufactured using aluminium alloy and are fitted with **dust and soil proof bearings** to ensure an even and **efficient operation**.

The drum is rolled onto the rails over the flat bevelled end and the rollers can be locked for removal of the cable drum. The **rollers can be adjusted when using smaller diameter drums**. When working exclusively with small diameter drums the practical **Mini Roller Rails** can be used.

The **KATIMEX® Decoiler for disposable cable drums** is designed for the easy and safe decoiling of cables from damaged cable drums. With this decoiler cable drums up to 800 mm diameter and a weight of 200 kg can be loaded, moved and decoiled by a single person.

The sturdy and robust **Cable Drum Decoiler** is manufactured with a powder coated steel frame which guarantees **durability** and **long life** for this **maintenance free** decoiling device.

Decoiler for cable drums

Roller Rails

Roller Rail, aluminium

for small and medium-sized cable drums, aluminium body
rollers made of aluminium alloy, ball bearing, adjustable roller spacing

two rollers are required for a set

dimensions 1000 mm x 220 mm x 140 mm

max. drum-Ø	ultimate load	weight	art.-no.
1200 mm	1000 kg/set	8.2 kg	107019

Mini Roller Rails

Mini Roller Rails

for small cable drums, aluminium body, synthetic rollers
skid-proof rubber feet, adjustable roller spacing

two rollers are required for a set

dimensions 590 mm x 120 mm x 152 mm

max. drum-Ø	ultimate load	weight	art.-no.
800 mm	200 kg/set	2.1 kg	107025

Decoiler

Decoiler

for disposable drums and drums with damaged tread
for easy loading and decoiling by only one person
max. drum-Ø 800mm, max. load capacity 200 kg, collapsible

dimensions 980 mm x 800 mm x 200 mm folded

type	weight	art.-no.
Decoiler complete (107272 & 107273 included)	14.0 kg	107270
Decoiler basic device	11.6kg	107271
Option length measuring device	0.8 kg	107272
Option 2. drum axle	1.6 kg	107273

Cable Drum Decoiler

Cable Drum Decoiler

with lateral support, for shaftless decoiling of cable drums
adjustable roller spacing, carrying handle

dimensions small 120 mm x 600 mm x 635 mm / large 160 mm x 750 mm x 780 mm

max. drum-Ø	ultimate load	weight	art.-no.
700 mm	200 kg/set	14.0 kg	107134
1000 mm	700 kg/set	26.0 kg	107135
