FIBRAIN PREMIUM telescopic patch panel

OVERVIEW:

Fibrain telescopic fiber optic patch panel are specifically designed and tailored to meet our customers' needs. Main distribution areas where these panels can be applied are patching shelves and splicing shelves. Removable front panels facilitate installation of all standards of adapters, including hybrid combinations. Patch panels are made of grey RAL7035 powder-coated metal steel and are available in 1U and 2U options. Panels on telescopic rails provide a full opening to mount cables easily. Cable entries are adjusted to mount PG12- PG16 cable glands and cables terminated with FIBRAIN multi-patchcords. The interior design with handles facilitate proper management of fibers. Therefore, adjustable side handles provide the possibility to move the panel inside the cabinets. Our product portfolio offer includes a large variety of front plates, thus almost each standard of adapters can be easily mounted.

APPLICATIONS:

Fiber optics interchange points;
Distribution networks;
Serwer room;

FEATURES & BENEFITS:

1U and 2U;
